Company Overview

"FREEWAY FINANCE" ACCOUNTING OFFICE

Accounting office "Freeway Finance" provides accounting and tax consulting services to Armenian and international companies. Our goal is to decrease financial risks of our partners and to increase the efficiency. Our company completely takes over the communications with the state bodies of Armenia (such as the Tax Inspectorate, the National Statistical Service, etc.). Our specialists speak three languages (Armenian, English and Russian). And we have expertise in accounting in many sectors of the economy, from public catering and trading to IT, health care, logistics and mining.

Our services

Company state registration

State registration, reorganization and activity termination of legal entities such as LLC, CJSC, OJSC, as well as Private Entrepreneurs...

Carrying out accounting

Installation of accounting software, calculation of salaries, expenses and tax payments, representation of Company's interests in social security administration...

Tax consulting

Consulting on tax legislation nuances. Consulting support during tax audits and disputes...

Preparation of reports

Preparation of monthly, quarterly, semiannual and annual accounting and tax reports with further presentation to relevant authorities...

Checkup and recovery

Identification and correction of mistakes in accounting, as well as in initial documents and tax reports...

Tax optimization

Optimization (decrease) of tax payments through implementation of privileges provided by law and optimization of business processes.

Financial analysis and expert opinions

Conducting a financial analysis and presenting an expert opinion.

Freeway for Startups

For Freeway Finance it is bound in honor to support the development of Armenian small and medium business, as the success of our business also depends on that. So we start a social responsibility program with name of "Freeway for startups", the aim of which is to help businessmen at the initial period of establishing their business, when the resources are in lack.

In the scope of the program a full package of free professional accounting and consulting services will be provided to the startups, starting from the consultation about the choice of company's organizational form, preparation of founding documents, registration of the company and till the choice of the most optimal tax scheme.

After the end of the program the participants will enjoy the services of "Freeway Finance" in preferential conditions.
